Human Genome Tour 2016
From NGS Technologies to Evolutionary and Medical Genomics

key information
March 14 – April 1, 2016.
- Organizer: Hugo Naya
- Funding: IDB URUGENOMES
- 25 students (15 Uruguay + 10 International)
- 120 hs.

Agenda
March 14 – 18: NGS technologies and bioinformatics applied to the Human Genome

Teachers: Dr. Changhoon Kim (Macrogen, Korea)
Dr. Lucia Spangenberg (IPM)

March 21 – 25: Evolutionary Genomics

Teachers: Dr. John Novembre (University of Chicago)
Prof. Enrique Lessa (UdelaR)
Prof. Mónica Sans (UdelaR)

March 28 – April 1: Medical Genomics

Teachers: Prof. Jong-II Kim (GMI-Seoul National University)
Prof. Kenneth Kosik (University of California)
Dr. Carlos Rovira (Lund University)
Dr. Victor Raggio (UdelaR)
Dr. Federico Lecumberri (UdelaR-IPM)
Dr. Héctor Romero (UdelaR)

How to apply
- Short Curriculum Vitae
- Letter of support from your laboratory Head or Mentor

Please send it to: hgt2016@pasteur.edu.uy

Deadline: 2/17/2016 - 12:00 UYT

The course is aimed at Postdoc students and young researchers. Support for accommodation, per diem and local transportation will be provided to all participants from abroad. Travel expenses are not included.
